Port Congestion Surcharge Postponed

The current ILA contracts have been extended for 90 days as agreed during negotiations between the

ILA and USMX. As a result carriers have postponed the Port Congestion Surcharge announced earlier

this month.

Please note Shipco Transport will also postpone this fee. We will be monitoring the situation over the

next couple of months, should carriers reinstate the fee Shipco will do the same.

Should we receive notification from the carriers that any changes will take place to the above, we shall

of course inform you accordingly.

- Please note that these increases are applicable to transshipment cargo also.
- w/m = 1 cbm/1000 kg. , except for Caribbean and Central America w/m = 1cbm/500 kg
- GRI's will be rolled into the ocean rates on the effective date

We thank you for your understanding in this matter and should you have any questions, please do not

hesitate to contact us.
